

LUX WALKER

EXPERIENCE ARCHITECTURE IN VIRTUAL REALITY

PRESENT DESIGN TO CLIENTS

MARK-UP DESIGN WITH TEAMS

EXPERIENCE	EXPLORE	TRANSFORM	RENDER
Space Walkthrough an immersive true-to-life scale model	Design processes Reveal & mark-up design improvements and changes	Materials Change materials instantly	Stills Capture beautiful 3D renders and 360 panoramics
Light View sun studies linked to location, seasons, time of day		Vegetation Add plants to your scene	

Take your existing 3D model into virtual reality.

Compatible with:

.obj

Fully immersive, interactive and collaborative design tool. Instantly export your 3D model to VR and meet with your client inside a virtual building, from your desk. Walkthrough your model together, capture and export stills.

- ✓ Impress Clients
- ✓ Make Faster Design Decisions
- ✓ Collaborate with Teams Anywhere in the World

MARKET LEADING FEATURES

MULTIPLE PEOPLE IN VR
Teams from different locations can mark-up and discuss a design together in the same VR space.

AUTOMATED FEATURES
Automated conversion of light fittings, materials and textures.

LUXPOPULI

“As sub-consultants, it gives us a virtual space to remotely explore and develop our designs as an integral part of the architect's team, and to do so across the world.”

THOMAS PATERSON
DIRECTOR, LUX POPULI, MEXICO CITY

ARRCC

“Designers now go from building in 3D to a fully immersive environment, seamlessly, within seconds. Built in tools, in VR, have completely changed the way we work with, and communicate design.”

ENSLIN JOUBERT
BIM MANAGER, ARRCC

SHOWCASE DESIGN TO CLIENTS

Room Scale VR

PC VR

PC without VR

LUX Walker can be used in VR mode, at room scale or at your PC. Don't have VR? Use LUX Walker at your PC without VR.

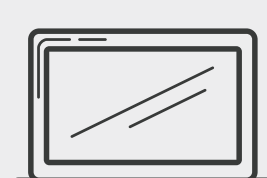

EXPERIENCE
LUX WALKER
EVEN WITHOUT
A VR HEADSET

*VR mode users require the Oculus Rift or HTC Vive headset, along with a PC that follows the recommended specs.

WHAT YOU GET

TOOLS

- View mini model mode
- Teleport around your model
- Change time of day
- Plant vegetation
- Change materials
- Cut sections
- Toggle layers
- Markup changes
- Measure height and distance
- Render 3D stills

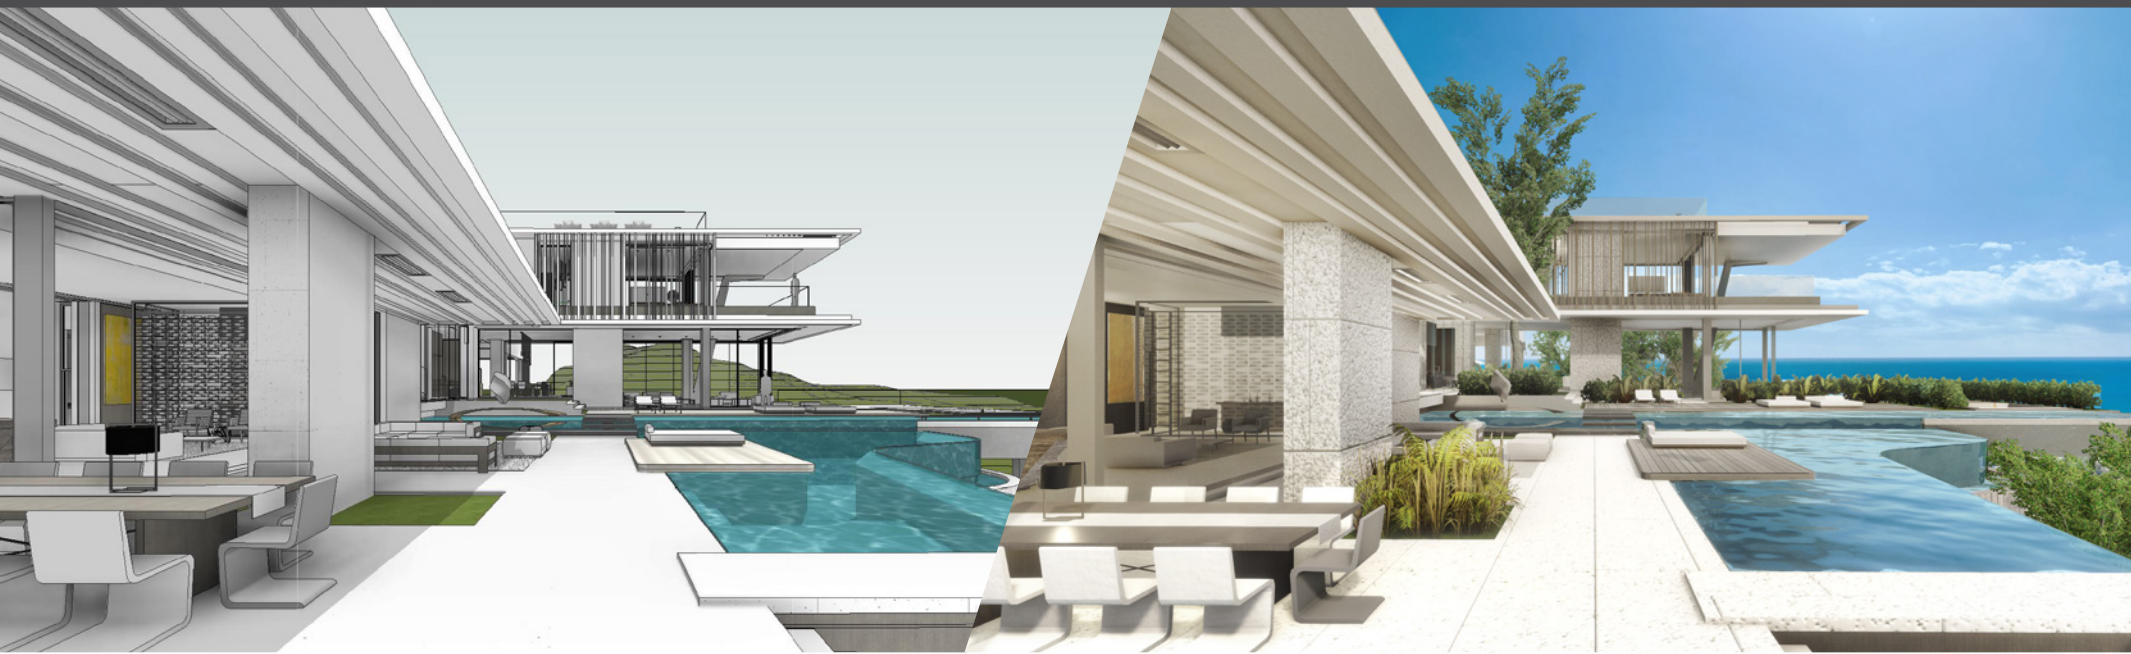

LUX WALKER PRO:
\$100 PER MONTH

60 DAY FREE TRIAL
WITHOUT RESTRICTION

FEATURES

- True-to-life scale
- Multi-users
- Interactive
- Join a virtual meeting
- Capture & export stills

COMPATIBILITY

LUX WALKER is compatible with most 3D modelling programs:

REVIT

SKETCHUP

RHINO

BLENDER

.OBJ.

.obj

“SAOTA use LUX Walker on most of our projects, for design crits and client presentations. Clients are always blown away! I firmly believe that VR will soon be the norm for architectural presentations. Once you've worked like this, there is no going back.”

STEFAN ANTONI
DIRECTOR, SAOTA
